GENERAL AND REVENUE SECRETAR

Serial Nos.

Major ~~Part~~ B for January 1898.

SUBJECT.

Remission of Irrigation Cess on lands irrigated by private wells.

Indexed

W D 88—GPB—50,000—24-7-16

Extracted from the Mysore Revenue Manual. Page 161.

No. 341.

The 11th February 1875.

It is hereby notified for general information that the abolition of the Irrigation Cess as a separate levy in this Province having been sanctioned by the Government of India, in letter No. 210 R. of the 27th August 187 the following rules are substituted for Sections XIV, XV and XVI of the Revised Survey Guarantee published in the Mysore Gazette under Notification No. 198 of 9th February 1870.

XIV. The Irrigation Cess having been abolished as a separate levy of one anna in the rupee on the assessment of wet lands, it will be hereafter merged in and collected with the ordinary assessment of such lands, and at the settlement of each taluk a lump sum equivalent to the amount of the cess so merged in the assessment will be set apart by the Settlement

P.T.O.

Officer out of the annual revenue of the taluk to form the "District Irrigation Fund", which will be administered by the District Committee, in the same way as the ordinary Local Fund for the repair, improvement and reconstruction of works of irrigation within the taluk.

XV. In the Malvad Taluk the sum set apart to form the Irrigation Fund will be limited to such portion of the actual equivalent of the original extra cess as may appear to be fairly needed for the purpose for which the maintenance of a District Irrigation Fund is proposed, and any portion of the sum so set apart that cannot be advantageously utilized for such purpose may, with the sanction of the Chief Commissioner, be allotted as a grant-in-aid to the ordinary Local Fund of the taluk applicable to general improvements.

XVI. Whatever sum may be assigned, as above, at the

settlement

settlement of a taluk as the quota of the "District Irrigation Fund," will remain as the fixed allotment for this purpose during the currency of the settlement.

XVII. The Irrigation Cess will similarly merge in the future survey valuation of all wet lands held in Inam whether in Government Villages or in whole inam villages and 1/7th of such valuation will be collected similarly to a Jodi, but under the designation of "Equivalent of the Irrigation Cess," separately from, and in addition to, the quit-rent leviable on such lands or villages, and be carried to the account of the "District Irrigation Fund."

XVIII Kayamgatta and Sarvamanya villages shall pay Local Fund at the rate of one anna in the rupee, the former at the fixed Kayamgatta rent, and the latter on the recorded value of the Inam. When such villages have been surveyed, the same course

will

ll be followed as that laid
own for Inam holdings in the
preceding section. Where "they
have not been surveyed, the
equivalent of the Irrigation
Cess" will be levied under that
designation at the rate of one
anna in the rupee on the
revenue derived from the
wet lands under cultivation
within their limits as
certified to by the holders
of such villages, and the
amount so realized will
be carried to the account
of the District Irrigation
Fund.

Subject No 105

Irrigation cess on Kushki Bagayat.

Summary of discussion. On garden lands under kapile wells, the one anna Irrigation Cess is levied as on lands under tanks, which are always repaired by Govt. It follows that these wells whenever they get out of order should be repaired by Govt, or the irrigation cess foregone.

Dewan's reply. Where the well is not below a tank and the garden land is what is called "Kushki Bagayat", the levy of irrigation cess is irregular. The Deputy Commr will be asked to see whether there are such cases. (See also Subject No 188 below).

Subject No: 188.

Irrigation cess on dry mann land converted into garden by private well.

Summary of discussion. It is unreasonable that irrigation cess should be charged on lands cultivated with garden crops with water from wells dug by the occupant in his dry mann land.

Dewan's reply. In such a case, the levy of irrigation cess is wrong. (Vide reply to a similar representation from the Chittaldurg District. Subject No. 105 Supra). Orders will be given for revision if found necessary.

Subject No. 245.

Irrigation Cess on lands irrigated from private wells.

Summary of discussion.—Irrigation cess on lands irrigated from private wells should be remitted.

Dewan's reply.—The cess will be remitted on receipt of information called for from Districts.

No. 4700-8—Cir. 93, dated 18th July 1891.

Order.—The attention of the Survey Superintendent and of Deputy Commissioners of Districts is drawn to Subjects Nos. 105 and 188, (Irrigation cess on Kûshki Bagayet lands) brought up at the Meeting of the Dasara Representative Assembly, held in October last and to the Dewan's reply to the effect that the levy of Irrigation cess on the assessment of lands irrigated by private wells is irregular. Deputy Commissioners of Districts will investigate the subject and submit a report for the orders of Government together with a statement showing the * particulars of land of the kind above mentioned and the amount of Irrigation cess in question. The Survey Superintendent will report whether the Irrigation cess has been merged in the assessment of lands in Taluks settled after the abolition of the Irrigation cess, as a separate levy (Notification No. 341, dated 1st February 1875) and if so, to what extent.

OFFICE NOTE.

SUBJECT. Lands irrigated by private wells and Irrigation cess levied thereon.

LAST REFERENCE. Letter No. 815 dated 3 April 1893.

from Dy Comnrs. Trichinopoly District.

Govt Pro: No. 4700-8 & 18 July 1891.
cis 93

In drawing the attention of the Survey superintendent and of the Deputy Comnrs: of Districts to Subject's Nos: 105 and 188 (Irrigation cess on "Khushki" ~~Kuskti~~ Bagayat lands) brought up at the meeting of the Dasara Representative Assembly held in October last, and to the Dewan's reply to the effect that the levy of Irrigation cess on the ~~thos~~ assessment

17

assessment of lands irri-
gated by private wells was
irregular, the Deputy Collectors
were asked to investigate
the subject and to submit
a report for the orders of
Government together with
a statement showing the
marginally noted* particulars
of lands of the kind above
mentioned and the amount
of Irrigation Cess in question.
The Survey Superintendent
was also requested to report
whether the Irrigation Cess
had been merged in the
assessment of lands in
Taluks settled after the abo-
lition of the Irrigation-
Cess as a Separate levy+
(Vide Notification No: 341
dated 31st February 1875) and
if so, to what extent.

2. With reference to the
above

Survey Suptdts No: 340 & 2/8/91.

above the Superintendent Revenue Survey, reports that the Irrigation cess has been merged in the assessment of all wet and garden lands in Talukas Settled subsequent to the issue of Notification No: 341 dated 1st February 1875; that this mersion extends to all wet lands, which comprise both garden and rice lands from whatever Source the irrigation may be obtained.

3. With regard to the present observation that the levy of Irrigation cess on the assessment of lands irrigated by private wells is irregular, Col. Grant alludes to the order No: 2269-70 dated 10th January 1888, which affirms the view that all wet and garden lands, whatever the Source of irrigation may

Mer order was passed by Mr Mansfield Collyer, & Mr had better go again before him. — I think the Collection of irrigation cess on any lands, which are irrigated from Private sources & which the Govt are not bound to remit is

may be, are liable to pay the equivalent of the Irrigation cess.

4. The Deputy Commissioners of Bangalore, Kolar, Tumkur and Chitaldurg Districts submit statements as called for in Govt. Proceedings No: 4700-8 Civ 93 dated 18 July 1891. of which the accompanying is an abstract.

5. The Deputy Commissioner of Mysore states that there is no wet or garden cultivation by means of Kapilay wells in his District, but submits that in one or two Taluks, particularly in Krishna-raj pett, Sugar-cane crop under tanks is irrigated for a time in the season (when the water is low in the tanks or when they get dry) by means of temporary wells; and that no

is irregular - & must be put a stop to. — No Sanction involved Rs 5262 — or about Rs. Ulsoorpet 7/9/93

In the case of lands included in the Statute now sent is the Inspr. concerned an appeal served separately? —

Is the inspr complete for all the Distts?

8/9/93

No: 162

By Comms No: 5029 91.

Submitted.

If I may be permitted to say so, I doubt the correctness of the statements received from the Bangalore District, for a case in which an irrigation cess of Rs 1-12- is being paid on an Inam land in the Hoskanahalli Village, Jala hobli of the Devanhalli Taluk, which is irrigated by private wells has not been taken into account in the present statement. I fear therefore that there may be more cases of the kind involving remission of irrigation cess.

20/6/93

II Whether the information now furnished is complete has to be ascertained from the Dr, Commissioners

Subd to Hon'ble Council

Hon'ble Mr Rice's subject was discussed at last Representative Assembly - (Hassan) Tumkur / Kolar

Since the lands irrigated under Tanks are assessed at lower rates, the irrigation cess must have been merged in the assessment -

† Hassan No: 418 Ds 19/9/91.
Kadur No: 329 Ds 19/9/91
Shemoga Nos: 505 & 512 Ds
30/9/91 & 16/8/92 respectively

8. In Government Pro:

No. 6621-8* dated 3rd October 1893, the Deputy Commissioners were requested to report whether the information furnished by them as regards the levy of the cess was correct and whether all the lands irrigated by private wells on which irrigation cess is imposed had been included in the statements filed by them.

R.T. 166-92

* Serial No 9 Part A.

9. Were being no cases in which irrigation cess is levied on lands irrigated by private wells in the Districts of Mysore, Hassan, Shimoga & Kadur, the Deputy Commissioners of Kolar & Chitaldroog report that the information already furnished by them is correct. The Deputy Commissioner of Tumkur submits a revised

Statement

* Except from the Bowringpet Taluk the report for which has not been rec'd.

Statement from which it will be seen that the amount of irrigation cess proposed to be remitted in his District has been reduced by Rupees 166-14-4 as shewn in the margin. Thus according to ~~the~~ present calculation the total amount of the irrigation cess to be remitted is Rs 5,395-2-7.

	Amount already proposed to be remitted. Rs. as P.	amount now proposed to be remitted. Rs. as P.	Difference.
Paragadur	486-8-5	487-6-2	+1-13-9
Tiptur	36-0-1	36-11-6	+0-11-5
Sira	798-11-2	630-3-8	-168-7-6
			-166-14-4

The Deputy Commissioner of Bangalore however states that though the Amildars report that the figures already furnished by them were correct, he cannot vouch for the accuracy of their statements, but that the Revenue Department having no means of knowing the registered source of irrigation for wet and

Inaryat lands, the information on the subject can be obtained from the Survey Department.

The Dy Commissioner suggests that the existing practice should not be disturbed except in cases in which lands are irrigated solely from wells which are altogether independent of tanks and channels & that such cases should be taken up when the aggrieved party applies for remedy. For further particulars, please see the Dy Commissioner's letter No 1287 dated 30th April/95. Vide Serial No 14 Part A.

Submitted for orders

Dy Dy
2/5/95

Submitted to Hon'ble Council
11/6/95

Send the file to the Land Revenue Survey with a copy of this memo and ask his opinion generally & with regard to the proposed instructions, the existing assessment practice - ment that such land revenue in Bombay would give us an analogy to follow and if grant may be asked to give information on that point also. & if so grant advocates a change & thus a remission of the burden which prevails this opinion is desirable as to whether we might not wait till the revision of settlement.

Draft 16/6/95 Hon'ble
Draft approved 18/6/95

Memo Continued

On being asked to give his opinion in the matter Col. Grant states that he does not advocate any interference with the Imperial Cess in Calcutta settled since 1875 in which the Cess is merged in the assessment; & that in Calcutta settled previous to 1875 the plan of merging the Cess which is now separately levied may be carried out as the rates come up for revision & assessment after the lapse of 30 years; & that the separate levy of the Cess in the mofussil may be foregone in the case where there is no tank system.

Grand Total compd by V.

Subd to 2nd
Councillor with
a copy of the Prop.
of the Committee.

The question of
affording relief
to the reduced
tracts is not
now before Govt.

The districts
interested

in the present question
are Bangalore, Kolar,
Tumkur & Chitaldrug.

Col Grant is of
opinion that it is diffi-
cult to say which
of the lands in question
are indirectly benefited
by ~~from~~ this proximity
to tanks or other Govt
source of irrigation,
& would not.

He is further of
opinion that the irri-
gation cess imposed
in the assessment in
Taluks settled since 1875,
should not exceed
Rupee 1- annas 8
one anna in the Rupee.

He is not in favor
of the abolition of
the cess in question.

The grievance
however is real, &
relief was more
than once held pro-
-mised. The matter
was again urged
upon the attention of
Govt during this Dasara meeting. An
early settlement is
therefore desirable.

Rec'd
18/10

15/10/95

Recd for favour of early disposal.

Please see Memo attached showing representations made since 1890 & replies returned thereto - Some elaborate statements are also put up

(1) in respect of Zaildars elected prior to 1875 & in which there is a report of one mind & (2) in respect of Zaildars elected since 1875 - in which the election is merely in the affirmative. Nothing definite seems to have been decided as regards retirement. In the meantime I submit that effect should be given to promises so often made by Govt.

— C

19-9-96

This subject was discussed at the meeting of the last Durbara assembly. It was decided that the Zaildars elected on lands irrigated entirely from private wells & not under Canals & that is to say not being influencing Canal irrigation known hitherto as Khushki & Sailab must be retained. This may be given effect to in all Zailas where the Zails is elected separately — It could so easily be dealt with there in which the Zail has been merged with the Tehsil, when must be done till the next revision.

Please give orders and at least one instalment of this long-pending question is done

G 1-9-91

No. 340

(1)

Survey Superintendent's Office.
Bangalore 28th August 1891

To,

The Chief Secretary to the
Government of Mysore.

Sir,

I have the honor to submit the report called for under Mysore Government Order No. 4700-8 Cir 93 dated 8th July 1891 on the subject of the Irrigation Cess.

2 The Irrigation Cess has been merged in the assessment of all wet and garden lands in Taluks settled subsequent to

to the issue of Notification

No. 341† dated 1st February 1895. †Please see page 1810 Revenue Manual Copy put up SNo (16)

This mension extends to all wet lands, which it is needless to say comprise both garden and rice lands, from whatever source the water for irrigation may be obtained, entered as such in the Survey Registers.

In the Order now under reply the levy of Irrigation Cess on the assessment of lands irri= =gated by private wells is stated to be irregular but I would point out that Order No. 2269-70† by the Dewan of Mysore dated

†Please see 910 q in Part B of the file

10th

10th January 1888 (on Registered Petition No. 2089 of 6th October 1885) affirms the view that all wet and garden lands, whatever the source of irri=gation may be, are liable to pay the equivalent of the Irrigation Cess

I have the honor to be

Bellary Dy Commrs Office
dated Bellary 9th September
1891.

From D. Ramachandra Row Esquire
Offg Deputy Commissioner

To The Chief Secretary to the
Government of Bellary

Sir,

With reference to Government order No 4706-8 dated 18th July last, regarding the levy of irrigation Cess on the assessment of lands irrigated by private wells (Subject nos 105 and 184 brought up at the meeting of the Dasara Representative Assembly in October last), I have the honor to state that there is no wet or garden cultivation by means of Kapalay wells in this District - In one or two Talukas, particularly in Krishnarajpett (Attikuppa) sugar cane crop under the tanks is irrigated for a time in

the season (when the water is low in the tanks or they get dry) by means of temporary wells - But no irrigation cess is levied on the assessment lands so irrigated.

I have the honor to be,
Sir,
Your most obed't Serv't

D. No. 149.

Encls. 1

Deputy Commissioner's Office
Bangalore

Dated Camp Handidrug May 11th 1892.

To, The Chief Secretary to the
Dewan of Mysore.

Sir,

With reference to your Official Memo Camp No. 1078 of the 21st January last, forwarding petition of Shanbhogue Ramachendrappa and others of Devanhalli, complaining against the levy of Irrigation cess charged on their lands irrigated by private wells, I have the honor to state that the petitioners are Shanbhogues in the Devanhalli Talook. Before the settlement of pakka potagi they held service Inam lands, on which irrigation cess was levied, as on the lands

of the other minor Inamdars.

2- Subsequent to the settle-ment of the potagi remunera-tion, full assessment was charged on the Service Inam lands; but these lands con-tinued to be shewn in the accounts, as Service Inams. As a consequence, irrigation cess was continued to be levied on them.

3- This circumstance coming to my notice, instructions were issued in Hukum No. 190 dated 31st August 1891 to the Talooks, prohi-biting the levy of this cess on fully assessed lands, though shewn in the accounts

as

as Service Inams.

4. The Amildar of Devan halli reports that the petitioners have accordingly been relieved of this cess during the Taluk Jamabundi in February last. They have now therefore no ground for complaint.

5. The Enclosure to Memo under reply is herewith returned. -

No. 1104. Dated 26th April 1892

To.

The Chief Secretary to the
Government of Mysore

Sir

I have the honor to state that in December 1891 one Narasimhaiah of Kordigere in the Tiptur Taluk complained to the Inspector General of Forests that in 1879 about 1½ acres of land out of his survey No. 21 in the village of Bellikathi was taken up for the adjoining State Forest without paying him any compensation or remitting the proportionate assessment thereon? The Inspector General passed on the petition to me with his Docket No. 5/F.C. of the 5th January 1892 - Enquiry

shews that 1 acre and 10 Guntas of the petitioner's land was taken up for the State Forest. I therefore beg to submit herewith alienation statement for the same and to solicit sanction to the proportionate assessment of 10 annas thereon being struck off the accounts.

2. As the land was taken up 12 years ago no compensation has been recommended.

I have yea

D. No. 1287.

Dy Commissioners Office
Bangalore District.
Dated 30th April 1894

To

The Chief Secretary to the Dewan
of Mysore.

Sir,

In reference to Government Proceedings No. 6621-8 / 160-92 dated 3rd October 93, anent the levy of Irrigation Cess on lands irrigated by private wells I have the honor to report that, the Amildars generally reply in the affirmative to your two queries of the 1st paragraph, but I cannot vouch for the accuracy of their replies. The Revenue Department has no means at all of knowing the Registered Source of irrigation for wet and bagayat lands — This information can only be obtained from the Survey Department.

As all wet and bagayat lands in Government villages, from whatever source their irrigation may be derived, are now charged with the Irrigation Cess, and as the Survey Department alone can inform the Government, as to which lands are dependent solely on wells, the question now before the Government has to be settled on the information to be furnished by the Survey Department.

2. With due deference to the opinion of the Government Se- perienced and expressed in their Proceedings No. 4700-8 dated 8th July 1891, I beg to submit that I fail to see why the existing practice should be modified. I confess that in theory the rule that the lands dependent on wells should not bear the Cess intended for the up-keep of tanks looks perfectly sound and fair. But, my experience of this District

is

is that the wells recognised by the Survey Department as sources of irrigation for certain wet and bagayat lands are mostly pits of various sizes which run dry when there is no water in the neighbouring tank. I have seldom come across any stone lined substantial well independent of a tank irrigating lands classed as wet or bagayat. If I had the disposal of the matter, I would not disturb the existing rule which is fair enough, so far as wells dependent on tanks are concerned, as such wells form an overwhelming majority. I would not disturb a long standing rule of general applicability in order to provide for a few rare exceptions. I would certainly exempt lands irrigated solely from wells, which are altogether independent of tanks and channels. If such cases exist, let the aggrieved party apply for the remedy and let each case as it arises be decided.

I have the honor to be
Sir

Durbar of Mysore
Bangalore

Sir

In reply to your docket no 6621-8, dated 31 October, 1893, requesting submission of complete and accurate information on the subject of the levy of Irrigation Cess on lands irrigated by private wells, I have the honor to submit the marginally noted reports received from the Assistant Commissioners and Amildars, from which it will be seen that there are no private wells in this district, by means of which, wet or garden cultivation is carried on, and that the temporary wells referred to by Mr. Ramakal Row, in no 502, dated 9th September, 1891, were those in Inam lands, under tanks for which no irrigation was separately levied

1895 forwarding a file of
correspondence and asking
me to express my opinion
generally

generally upon certain proposals
to remit the Irrigation cess
on land irrigated solely by
private wells.

2 The Irrigation cess, at
an additional anna on the
Rupee upon all irrigated land,
payable in all settled Taluks
from the year in which settlement
was introduced, was first
of all authoritatively decided
upon at a Committee assembled
at

at Bangalore from 17th to 22nd March in the proceedings of which the Chief Commissioner took part. In the printed Proceedings of that Committee no reasons are assigned for making the Irrigation cess leviable upon all wet and garden land but, as one of the Committee, I remember that the question was fully discussed and that it was the general opinion that not only would it be next to impossible

= possible to distinguish what
class of wat and gardan should
or should not pay Irrigation
cass, but it was also the
general opinion that even
wells not directly dependent
upon tank supply could not
fail to benefit by the general
and efficient maintenance
of tanks.

3 The Irrigation cass
was never expected to be capable
of being expended in definite
proportion to its levy, that is
to

to say strictly locally. A great many instances might be cited in which irrigated lands under tanks and other sources of supply have contributed to, but received no return whatever from, the Fund in the shape of expenditure on the works on which they were dependent.

4 My sympathy is much more with the contributors to the Fund in purely Malnad tracts than with the

the owners of wells, in the Maidan tracts, said to be entirely independent of tanks, a very difficult point to prove

5. In Bombay there is no Irrigation cess and consequently no analogy can be obtained for guidance in Mysore in dealing with the present question

6 I do not advocate any interference with the Irrigation

Irrigation cess in Taluks settled since 1875, in which the cess in question is merged in the assessment. There has been, in their case, no nicety of calculation by which the weight of the cess fall equally upon each acre of wet and garden land. The operation, in fact, of merging the cess in the assessment, amounted to little more than taking a little more revenue from the wet and garden lands than

than would otherwise have been the case, in consideration of Government undertaking to form a District Irrigation Fund to be expended as far as possible locally. The Settling Officer may be trusted to have distributed this small extra amount of revenue with a due consideration of the circumstances of each garden. The total extra amount taken would I am sure be found far

far short of what an extra
anna on the Rupee, as in
Talukas settled previous to 1875,
would give. I conside
that the plan of merging the
Irrigation cess in the assess=
=ment is by far the better
one and when Talukas in which
the cess is now separately
levied come up for revision
of the assessment after the
lapse of the 30 years lease
the operation of merging the
whole or a portion of the
present

present separately levied cess in the assessment can be very conveniently carried out and the procedure throughout the whole Province be thus assi=
=milated.

7 The separate levy of Irrigation cess in Malwad tracts is I think very hard, and I would suggest it being foregone in tracts where there is no tank system at

at all. There seems to be some doubt as to whether, in the case of the Sagar and old Anantpur Taluks, any Irrigation cess has been levied at all but on this point I will report further In the Sorab Taluk the cess has been separately levied and I think excepting in the more open parts where there are tanks it might be fore-gone

52 June

8 Of the Taluks in which the Irrigation cess has been separately levied some have been settled for just 30 years and none have been under settlement for less than 20 years

9 I beg to return the file received with your letter under reply

To

The Secretary to the Government
of Mysore, General and Revenue
Departments.

Sir,

With reference to your official memorandum No: 2513-20 R 913 of the 4th instant requesting a report as to the practice existing in this District in regard to the recovery of Irrigation cess on lands irrigated by private enterprise tanks and wells, I have the honor to refer you to correspondence ending with this office letter No: 288 of the 20th September 1894, with which was submitted a complete list of lands which are irrigated by private wells in this District and on which irrigation cess is levied. It will

RJ-160892 in re levy of irrigation cess on lands irrigated by private works was ordered by Govt on 18.10.95. JH 17/9

we seen that all the lands therein shewn are classed as "Khushki Bagayet" and not as wet." They are all supplied with igation from wells constructed at the cost of the ryots themselves. The object of the levy of the irrigation cess at the rate of one anna in the rupee of wet assessment being to meet the cost of the up-keep of the irrigation works from which water is supplied, it seems to me that the levy of the cess on lands under private wells which are not maintained by Government is unjustifiable. An exception may however be made in the case of wells which, being situated under Government tanks, derive their supply from a Government source. In such cases, the up keep of the tank upon which the private well is dependent devolves upon Government and the owner of the well

may justly be required to contribute towards it. But in the case of private wells which are entirely dependent upon natural springs, the object of the levy of an Irriga-tion cess is not apparent. The wells upon which the Khushki Bagayat lands shewn in the statement sub-mitted in September 1894 are mostly dependent on springs of this description and the lands irrigated by them are, in my opinion, entitled to exemption from payment of the Irrigation Cess. The lands are practically dry lands and though known as Bagayat and classed in the Akarbands under the head "Garden", are assessed at very much ~~as dry crop lands~~ lower than the wet or garden rate

2. Such exemption, if sanctioned, can easily be given effect to in regard to lands from which the Irrigation Cess is collected as a separate levy at the rate of one Anna in the rupee of the wet

assessment, but it would be difficult to apply the exemption in the case of lands in the assessment of which the cess is merged. A revision of the Karabund would be necessary if $\frac{1}{17}^{th}$ of the assessment on such lands has to be deducted.

3. As regards lands under private tanks, all wet lands under such tanks, whether held by the Constructor of the tank or by other persons, now pay the prescribed Irrigation Cess of one anna in the rupee of the assessment. In the case of these tanks, their upkeep and maintenance at the original standard devolves upon the Constructor (vide para 6 of the Rules in appendix A to the Revenue Rules), and so long as the condition prescribed by this Rule is observed, no Irrigation Cess should, I think, be levied from

him on lands on which a remission of one forth assessment or other concession is made in consideration of his having constructed or restored the tank at his own cost. All other lands under the tank should of course be subjected to the payment of the prescribed Irrigation Cess.

No 278. Deputy Commissioner's office
Tumkur District

Dated, Tumkur, 11th September 1896.

To The Secretary to the Government
of Mysore, General and Revenue
Departments.

Sir

Adverting to your official Memorandum No 2505-12 / R 912 dated the 4th Instant, calling for a report as to the practice obtaining in this District in regard to the levy of an Irrigation Cess on Bagayt lands irrigated by wells, I have the honor to refer you to my Letter No: 277 of this day's date and to state that in the Taluks settled prior to February 1875, Irrigation Cess at the rate of one anna in the rupee of the assessment is levied on all wet and garden lands under wells or tanks, whether Government or private. The levy of the cess is justifiable in the case of lands supplied with irrigation from a Government source, but where

the lands are entirely dependent upon wells or tanks constructed by ryots from private funds and maintained at their own expense, I fail to see how an Irrigation Cess which is intended for the upkeep of irrigation works can be collected, especially when the wells do not derive their supply of water from any Government source of irrigation. The Khushki & Bagayet lands irrigated by private well's have unfortunately been classed under the head "garden" and are therefore subjected to the payment of the Irrigation Cess, in common with the Dhuruvahair gardens which derive their irrigation from a tank or other work, the upkeep of which rests with the Government. The anomaly of this Classification should, I think, be removed and all the Khushki & Bagayet lands exempted from the payment of the Irrigation Cess

Rev. No. 1

Shimoga District
Deputy Commr's Office
Shimoga 26th September 1896.

To

The Secretary to Government
General and Revenue Departts.

Sir,

Subject No. 68
Irrigation Cess
on Bagayat lands.

With reference to Government official Memorandum No. 2505-12/R 912 dated 4th Instant drawing attention to Dasara subject No. 68 noted on the margin and requesting to report at an early date the practice obtaining in this District in regard to the levy of irrigation cess on Bagayat lands irrigated by wells together with my views in the matter, I have the honor to state that the

three Talukas of Channagiri, Sorab and Shikarpur were settled before the year 1875 and under the Chief Commissioner's Order No. 1013 Rev. 1 dated 7th May 1875, irrigation Cess is levied at the rate of one annna on all wet and Bagayat lands without distinction whether the Bagayat is irrigated by wells or otherwise.

2. In the other Talukas the irrigation Cess is not levied separately, but is merged in the land assessment fixed by the Survey Department which has assigned lump sums as per enclosed Statement for irrigation. Even in villages since transferred from among the 3 Talukas above mentioned to other Talukas

the same practice is observed.

3. Without obtaining information from the Taluks it is not possible to say in what cases irrigation cess is actually collected from Bagayat dependent on wells.

4. It seems hard at first sight that irrigation cess should be collected from gardens irrigated by wells. But it should be borne in mind that in the case of wells which stand below tanks, channels or streams, there is a strong presumption that but for the support of the latter the wells may run dry. It will not be fair to consider such wells as quite independent of other sources of irrigation or to exempt them from the Irrigation Cess. But as regards wells which are

not so situated, it must be held that they are independent of the sources of irrigation which are likely to be benefited by the Irrigation Cess and that the levy of the cess on gardens irrigated by them is unjust. It will however be found on examination that such wells are rare.

I have the honor to be
Sir,
Your most obedient servant

A Rangnekar
Deputy Commissioner

Bangalore 5th October 1896

To,

The Secretary to the Govt. of Mysore,
Rev: & Gen! Depts,
Bangalore.

Sir,

With reference to your official Memo: No. 25·13–20 R. 913 of the 4th ultimo, calling for a report regarding the recovery of Irrigation cess on lands irrigated from private Tanks and wells, I have the honor to state that the irrigation cess is merged in the assessment of Government wet and garden lands and is not therefore separately levied, except in the marginal three hoblis of the Bangalore Taluk, but it is recovered on minor Inam lands

Nelsur,
Yesvanchpur,
Agara.

2. Keeping in view the avowed object of the Irrigation cess, it does not appear to me equitable to levy it on Inams and on lands irrigated from private sources.

I have the honor to be,
Sir,
Your most obedient Servant,

M Narasimhayya

Dy: Commissioner

Bangalore dated 17th October 96

Camp No 9
17.10.96.

From

The Deputy Commissioner
Shimoga District

To

The Secretary to Government
General Revenue
Departments, Bangalore,
Camp Mysore

Sir,

With reference to Govt. Official Memorandum No 2505-12 / A 912 dated 4th September 96, drawing attention to Dessarah Subject No. 213 of 1895 and requesting to report the existing practice in regard to the recovery of irrigation Cess on lands irrigated by Private enterprize, Tanks & Wells together with my views thereon, I have the honor to state that only the three Talukas of Sorab, Shikaripur & Channagiri, were settled

settled before the Government Proceedings No: 341

dated 11th February 1875, ——————————

merging the Irrigation Cess in the Land Revenue came into force. The Amildars of the former two Talukas report that there are no cases where Irrigation Cess is levied on lands irrigated by private Tanks and Wells. The Amildar of Channapiri refers to such Cess being levied on lands irrigated by one private Tank. It was originally a Government Tank but was allowed to be repaired by Sirsikar Munisendrappa. It is a doubtful question whether it can be treated as entirely a private one and the question cannot be decided till further information is received.

2. This Cess is levied under para 14 of the terms of Revised Survey Guarantee published with Notification No: 108 of the 9th February 1870. Under it, "all wet crop lands" are liable to an additional anna in each rupee of land assessment and no distinction is made as to the source of irrigation

of

of the wet crop lands in question. If the present contention should be upheld, similar reasons might be advanced against such lands being assessed at wet rates at all. Moreover the guarantee only provides that the amount of this tax, shall be devoted to repairs &c. of works of irrigation. It is only a few tanks which will from time to time be repaired or reconstructed with the help of this Fund and many sources of irrigation, may either not derive any benefit from this Cess or be even incapable of being so benefited. For example, there are a great many instances of lands which are irrigated by jungle streams or by rain, paying this Cess and yet there is no likelihood of their deriving any benefit from this Cess.

3. I think therefore that the claim for exemption is not based on a sound principle and it would be inexpedient for Government to accede to it.

I have the honor to be
Sir,
Your most obedient Servant

A Rangaswamy
Deputy Commissioner
Chenglepet District

Read again:—

6 of 1891 Proceedings of Govt No 4700-8 / Cir 193 dated 18th July 1891, requesting the Dy Commrs of Districts to investigate, and report upon, the Subject relating to the levy of irrigation cess on lands irrigated by private wells.

Read:— Subsequent correspondence ending with letter No 422 dated 8th August 1895 from the Superintendent of Revenue Survey giving his opinion on the Subject.

Also:— Replies received from the Dy Commrs of Bangalore, Tumkur, Mysore, Hassan and Kadur Districts, to this office Official Memorandum No 25'13-20 / R 913 & 4.9.96, as to the existing practice in these Districts in regard to the

93

Recovery of irrigation cess on lands irrigated by private enterprize tanks and wells.

Also — Replies received from the Dy Commrs of Tumkur, Hassan, Shimoga and Kadur Districts, to this office Official Memorandum No 2505–12 / R·912 & 4·9·96 reporting upon the practice obtaining in their Districts in regard to the levy of irrigation cess on Bagayet lands irrigated by wells.

Order thereon :— No 1125-1-9 / R: 3738 & 23/6/97

Having given the matter their best consideration, Govt are of opinion that some measure of relief is necessary. They are accordingly pleased to direct that the irrigation cess levied on "Kushke Bagayet" lands, both assessed and Inam, irrigated

irrigated entirely by such private wells as are not under tanks and subsidiary to tank irrigation, (as well as lands under private enterprize tanks,) be remitted in all the Taluks where the cess is not merged in the land assessment but levied separately.

2. The existing arrangement under which the cess has, in certain cases, been merged in the assessment of the lands, need not be disturbed till the revision of the Survey Settlement.

" Supdt of Rev Survey.

would omit the words under brackets. Private enterprise tanks being three fourths wet-kandm & supply only a partial remission of a quarter they cannot be put on the same level as a well - the latter does not need annual repair - but private enterprise tanks may be in series require repairs which if neglected would throw under on the state - the case of wells is based on sure & certain basis & let us restrict our action where further treatment.

READ AGAIN :—

Proceedings of Government No. 4700-8—Cir. 93, dated 18th July 1891, requesting the Deputy Commissioners of districts to investigate and report upon the subject relating to the levy of irrigation cess on lands irrigated by private wells.

READ :—

Subsequent correspondence ending with letter No. 422, dated 8th August 1895, from the Superintendent of Revenue Survey, giving his opinion on the subject.

ALSO :—

Replies received from the Deputy Commissioners of Bangalore, Tumkur, Mysore, Hassan and Kadur districts, to this office Official Memorandum No. 2513-20—R. 913, dated 4th September 1896, as to the existing practice in their districts in regard to the recovery of irrigation cess on lands irrigated by private enterprise tanks and wells.

ALSO :—

Replies received from the Deputy Commissioners of Tumkur, Hassan, Shimoga and Kadur districts, to this office Official Memorandum No. 2505-12—R. 912, dated 4th September 1896, reporting upon the practice obtaining in their districts in regard to the levy of irrigation cess on bagayat lands irrigated by wells.

No. 11251-9—R. 3738, DATED, BANGALORE, 23RD JUNE 1897.

ORDER THEREON.—Having given the matter their best consideration, Government are of opinion that some measure of relief is necessary. They are accordingly pleased to direct that the irrigation cess levied on "Kushki bagayat" lands, both assessed and inam, irrigated entirely by such private wells as are not under tanks and subsidiary to tank irrigation, be remitted in all the taluks where the cess is not merged in the land assessment but is being levied separately.

2. The existing arrangement under which the cess has, in certain cases, been merged in the assessment of the lands, need not be disturbed till the revision of the survey settlement.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of Districts.
The Superintendent of Revenue Survey in Mysore.
